The activities carried out by the Commission during the reporting period, as outlined in the Combined Report, seek to implement the priority areas set out in the Commission’s 2021-2025 Strategic Plan. In this regard, the Commission’s statutory meetings were specifically devoted to the improvement of the administration of justice through the processing of Communications on alleged human rights violations, thereby reinforcing the implementation of the Commission’s mandate of protecting human and peoples’ rights. 43. The status of implementation by States Parties of the Commission's Decisions, Requests for Provisional Measures and Urgent Appeal Letters remains poor as evidenced by the information below:

- **Implementation of Decisions on Communications**

44. During the reporting period, the Commission did not receive any information from States Parties on the implementation of its final decisions on Communications, pursuant to Rule 125 of its 2020 Rules of Procedure.

45. However, the Commission has received the Complainants' report on the implementation of the decision in *Communication 396/11 - Mohammed Abderrahim El Sharkawi (represented by Egyptian Initiative for Personal Rights (EIPR) and Open Society Justice Initiative (OSJI)) v. Arab Republic of Egypt*, pursuant to Rule 112(2) of the Commission's Rules of Procedure (2010) under which the Communication was instituted. EIPR and OSJI have informed the Commission that the Respondent State has not informed them of the measures taken to implement the Commission's decision on the Communication.

46. The Commission also heard from the Complainant in *Communication 389/10- Mbiankeu Geneviève v. Cameroon*, adopted by the Commission at its 56th Ordinary Session, held from 21 April to 7 May 2015. The State partially implemented the decision by awarding the Victim a portion of the amount that the Commission had requested in its decision. The last update, which included various correspondences with the relevant departments of the Respondent State, indicated that the Commission’s request for a parcel of land of equal value and nature to be awarded to the Victim was still awaiting implementation.

- **Implementation of Requests for Provisional Measures**

47. During the period under review, the Commission did not receive any response to the requests for Provisional Measures issued during that period, as indicated in the table on Complaints/Communications examined during the reporting period.

- **Implementation of Concluding Observations**

48. During the period under review, the Republic of Benin, Kenya, Niger and Namibia submitted, as part of their periodic reporting process, the status of implementation of the Concluding Observations formulated by the Commission on their last reports as well as the challenges encountered. The Kingdom of Eswatini indicated that it couldn’t address the Concluding Observations raised by the Commission to the initial report as the document could not be located within government departments and the search for the document is still continuing.

- **Implementation of Missions’ Recommendations**
49. During the period under review, the Commission did not receive any report on the implementation of the recommendations made following the various missions undertaken in some States Parties.

- Implementation of Letters of Concern and Urgent Appeal

50. During the period under review, **twenty-six (26)** Letters of Concern and Urgent Appeal were sent to States Parties regarding various allegations of human rights violations.

XI. PRESS STATEMENTS AND PRESS RELEASES
54. During the reporting period, the Commission issued fifty-five (55) Press Releases on various human rights issues. The press releases are available on the Commission's website: www.achpr.org.

XII. PROMOTION AND FACT-FINDING MISSIONS

55. The Commission did not undertake any advocacy or fact-finding missions during the period under review, primarily due to the global COVID-19 pandemic.

Fact-finding mission to the Tigray region of the Federal Democratic Republic of Ethiopia

56. During the reporting period, the Commission was called upon by H.E. Moussa Faki Mahamat, Chairperson of the African Union Commission (AUC), following a meeting of the Peace and Security Council held on 9 March 2021, during which the Prime Minister of the Federal Democratic Republic of Ethiopia, H.E. Dr. Abiy Ahmed, expressed his willingness to mandate the Commission to investigate the ongoing crisis in the Tigray Region of the Federal Democratic Republic of Ethiopia.

57. The Commission welcomed this commendable initiative to investigate the ongoing crisis in the Tigray region and, in this regard, requested the government’s authorization to undertake a fact-finding mission to the Federal Democratic Republic of Ethiopia. Despite the authorization granted by the Ethiopian authorities to carry out the field mission, the ACHPR was unable to reach an agreement with the authorities on the terms and conditions for conducting the mission, which included, among other things, the conduct of a joint mission under the supervision of the Public Prosecutor, the participation of the State in the composition of the ACHPR Delegation, which reserved the right to remove persons it deemed unsuitable, and the validation of the report by the Ethiopian authorities prior to its publication. These terms and conditions have direct consequences on the independence and neutrality of the Commission, in addition to undermining the credibility of its work.

58. In view of the deteriorating human rights situation, the Commission decided to establish a Commission of Inquiry into the human rights situation in Tigray, Ethiopia pursuant to Resolution 482 (EXT.OS/XXXII) 2021 on the Fact-Finding Mission to the Tigray Region of the Federal Democratic Republic of Ethiopia in accordance with Article 45(2) read in conjunction with Article 46 of the African Charter on Human and Peoples’ Rights (the African Charter). In carrying out its mission, it organized various meetings with different actors including the Ethiopian authorities. In addition, it held oral hearings to receive the testimonies of witnesses and victims and also received reports on the human rights situation in the Tigray region. A report on the findings and recommendations will be presented in this regard.

**Human Rights Situation in the context of the COVID-19 pandemic**

61. While commending the measures put in place by State Parties to contain the spread of the coronavirus and mitigate the effects of the pandemic, the Commission regrets the emergence of human rights violations during this period, including:

i. Limited access of vaccines to low-income countries and communities, with some countries only receiving about 4.5% of vaccine for their population size; and the refusal to temporarily waive the COVID-19 patents, thereby limiting access to vaccines;

ii. Human rights abuses reported in the context of continuing states of emergency, disaster and calamity declared in many State Parties in relation to the COVID-19 pandemic, including: challenges to the rule of law; the use of extraordinary legislative powers to impose limitations and restrictions, and the circumvention of Constitutional protections; lack of proper monitoring for extensions of states of emergency and disaster; the use of the military to enforce COVID-19 emergency measures; discriminatory enforcement of measures against particular persons and groups; socio-economic rights violations; restricted access to places of detention; restriction of access to justice; gender-based violence; and undue restrictions of the right to freedom of association and assembly, and electoral participation;

iii. The excessive use of force by law enforcement officers in the implementation of COVID-19 response measures, such as lockdown and curfew orders, and the sustained use of detention as a means to penalise infringement of COVID-19 regulations, with reported cases of police brutality resulting in killings,
torture, arbitrary arrests and forced quarantine imposed on people violating the measures;

iv. The continued restrictions on freedom of expression and of the press, and the often-lengthy detention of civil society activists, as well as the unjustified prosecution of journalists under the guise of enforcing COVID-19 regulations;

v. The inadequate supply of COVID-19 protective equipment and access to basic sanitation and potable water facilities within prisons;

vi. The negative impact of the COVID-19 pandemic on social and economic rights, health care, water and sanitation, food and nutrition, housing, education and social security;

vii. The disruptive impact of COVID-19 on HIV services including, testing, treatment initiation and referrals for care services;

viii. The increased rate of girls being raped in many African countries due to the imposition of lockdown measures;
